

Greetings Club OLSB POCs,

So far we have 48 OLSB event prospects from 16 different clubs. Please find at the end of this message a listing the events for each club. Please inspect this list to confirm that all the prospective OLSB events from your club are on the list.

Hopefully, you are familiar with the OLSB requirements for the initial text for the AVA ESR data entry fields,

1. "Start Point Only (website basic info)"
2. "Start Point Address and Driving Directions (Start Point: Starting Point book) (website more details)"

Unfortunately when one views these same fields using the AVA website event display capability, they are labeled respectively as

1. "Location:"
2. "Start Point / Driving Directions:"

In order for an event to be approved for inclusion in the 2017 OLSB system, the initial text for the first data field needs to be:

WEB REGISTRATION ONLY (www.cva4u.org) - START: ...

where the "..." indicates text that may describe, in general terms, where the walk starting point is located, typically a city and state. The dash before "START" in the initial text is optional.

For the second data field, the initial text needs to be:

REGISTRATION: Please use the online start box provided by the California Volkssport Association website (www.cva4u.org). Follow the left side link, 'Online Start Box', and the instructions provided to sign a waiver and register for this event. Payments for event credit and directions use Paypal. The directions and insert cards are PDFs that you can download and print as needed. The POC does not provide event directions or accept alternate payment methods. The entire online process should take less than 10 minutes for a first time user. ...

where the "..." indicates text that may include driving directions on how to get to the walk start location.

I expect to send 2 more e-mails to club OLSB POCs (and others as requested). The next e-mail will provide recommendations concerning the content of walk direction pdfs to be uploaded for each OLSB event. Then a following e-mail will be sent out, hopefully by the end of the week, providing step by step instructions for submitting your prospective OLSB events for approval when the OLSB system is ready. (I am currently working with Chris to identify and fix a few issues/bugs to make the event approval procedure work smoothly.)

Attached to this document is a listing of prospective 2017 OSLB events ordered by sponsoring club that includes the event POCs.

Best regards,

Mike
